

# ADVANTAGES OF USING BASE

VERSUS ENCLOSURE (BASE+COVER)  
FOR CRS/CTS-120, CRS/CTS-240, ECS-100/200 SERIES

WITH ENCLOSURE

WITH BASE

Better with BASE!

1. Better cooling (less thermal stress)
2. Lower profile
3. Lower cost
4. Better appearance
5. Same IP

Using enclosure (base+cover) is a redundant option that does not bring any profit.
